SYSTEMATIZED CHARITY.

Already Proving Efficacious and Economical—Plan for Visiting Nurses.

Two recent innovations in the line of charitable work in this city will be watched with interest by the residents of Willimantic during the next few months. One, the United Charities association, has already been organized, the directors elected, permanent secretary selected, and a large number of organizations have joined. In addition, many individuals have joined as sustaining members, paying a dollar a year or more toward the expenses of the association.

Miss Nancy Austin, the secretary, a woman of experience and tact, is daily at the rooms used by the association, on Valley street, in the third armory building and is already doing efficient work, according to the directors. One of them stated Saturday that the saving in needless expenditure and the duplication of effort had already amounted to considerable. In his opinion, if conditions had remained as bad as they were in the early winter, even then, under the system now in use, not over 60 per cent. of the goods and money spent and distributed at that time would be used now.

Where in many cases the city or some society or individual was giving away eight and nine leaves of bread to a family at a time, now flour is given, and bread baked by the woman of the family. One case was reported where the wife of a man working in the mill was ill. There was a baby in the family, and it seemed as if the man would have to give up his work for a time, to take care of his wife and child. Miss Austin found a place for the child, where it could receive good care temporarily, and herself carried it from its home to the opposite end of the city.

In this way, the man stayed at work and they are being helped over a hard period with no loss of self-respect, and without becoming much of a burden on the town.

Another scheme which ought to prove benefit is the visiting nurse idea, put forward by the St. Joseph's hospital auxiliary, which will go into effect about May 1st. The duty of the nurse will be to visit all sick persons who may need her attention, and who can be tended at home as well as or better than at the hospital, and to instruct her patients and others where necessary in the proper rules of sanitation and health, thus preventing disease as well as aiding in its cure. The nurse is to receive no compensation personally from her patients, but as their circumstances may allow, small payments may be made by those whom she visits, the money to go into the fund of the auxiliary for further work in this line.

An agreement between the two bodies, it is extremely likely that the visiting nurse may be called in by the United Charities, and in this way true cooperation obtained.

NORWICH RUNABOUT STUCK.

Manifold Car Runs Into That of Charles W. Dow.

A runabout driven by Charles W. Dow, of Norwich, and a Ford run by a Mr. Collins of Mansfield were in collision Saturday morning at the corner of Main and Walnut streets in this city. Mr. Dow was driving west on the right hand side of Main street, when the Ford car came out onto Main street from Walnut and collided with his car. Mr. Collins was turning to the left to go east on Main street. The recent traffic rules adopted by the aldermen state that in such cases the drivers shall give the one on the right hand the right of way. As the Ford car was on the right hand, it would seem as if the former had the right of way.

Mr. Dow was away again inside of an hour, but Collins' car will be laid up for several days for repairs.

Team Drops Ten Feet. Early Saturday morning the driver of a team of horses, who was unloading a dump truck, was struck by a C. V. freight house in this city, backed his cart too close to the edge of the dump, and cart and horses took a ten foot drop. The driver jumped when he saw the cart going, and escaped unhurt. The horses seemed to be all right when unangled after the fall, save for a cut or two.

How to Look Years Less Than Your Age

The most aged face will look years younger after the use of ordinary mercuric acid wax for from ten days to two weeks. This remarkable substance, actually removes the thin veil of faded or withered outer skin, and in a little time, gradually the fresher, more youthful skin underneath is revealed. This absorption process being a purely hygienic one, an entirely natural complexion is acquired—quite free from the artificial complexion, which appears anything but girlish, though upon bearing upon the face, it causes no irritation, no matter how caused, making the skin firm, smooth and young-looking.

To eradicate such age marks as wrinkles, freckles, etc., dissolve 1 oz. powdered salicylic acid in 1 pt. witch hazel. This has wonderful softening and toning properties. It quickly effaces all kinds of wrinkles, no matter how caused, making the skin firm, smooth and young-looking.

JEWETT CITY

E. L. Class Meets—Peeking Robin Returns—Pierre Savaria Dies at Backus Hospital—N. E. O. P. Social and Dance.

The E. L. class of the Methodist church held its monthly business meeting at the home of Miss Mildred McClurg. Refreshments were served after the business hour.

Robin Returns For Third Year.

The robin which so persistently picks at the window at the home of J. B. Palmer, Jr., in Lisbon, arrived the second of April this year. This is the third year the pair have come to nest in the vines near the window. This year a Christmas wreath was hung in the vine and the nest is being constructed in the lower part of the wreath. The male robin commences early in the morning to peck the window-glass and keeps it up nearly all day, and has done this same stunt each year. He does not try to enter the room, if the window is raised. No reason can be found for his action, unless it is a case of mental aberration.

OBITUARY.

Pierre Savaria.

Pierre Savaria died at the Backus hospital only a few hours after his removal there from Joseph Dufresne's home Friday. He has been employed at the farm of Mrs. Hadley in Lisbon for five years. He came to Jewett City to consult a physician, and not feeling able to return to Lisbon, he went to the Dufresne home for the night. He became so ill, and developing pneumonia that he was taken to Backus hospital. He was fifty-three years of age and is survived by four sisters, one of whom is Mrs. D. E. Jette, of Danielson, where the body is to be taken.

Social and Dance.

Eleanor Jewett lodge, No. 236, N. E. O. P., held a social and dance in Riox hall on Friday evening, under the direction of Ernest Saunders, Miss Beanie Blake, Miss Mary Tinker, Miss Mary Campbell and Miss Rose Murtha. YANTIC

Baseball Association Dance Attended By Seventy-Five—Small Boy Stopped on His Way to Fitchville.

Mr. and Mrs. Frank Allen Tracy spent a day recently with friends in Jewett City.

Mrs. Nathan Austin has returned from a few days' stay in Willimantic, attending the funeral of a relative in Chaplin.

Small Boy Lost.

George Jacobson, the four year old son of Mr. Jacobson, of Bean Hill, straggled from home Thursday afternoon and was found in the village near Jones' store crying. Friends recognized him and tried to have him go home but his kool was Fitchville. Finally one member of the gathering crowd

offered to take the boy home. The boy's sorrow was turned to rejoicing when he was greeted by his anxious parents.

Spirits of Mischief and Other Spirits. Some animated spirits who probably couldn't be hired to do a day's work got frolicsome in the neighborhood of Sodon Friday evening and the things they didn't remove were immovable. Wagons were run out of sheds, the bucket taken from the historic well, etc. It surely looked as if some col-

lege students had been having a hal-lowe'en party. A gasoline tank recently installed by W. E. Manning holds 250 gallons.

Seventy-Five at Dance. The first dance given by the Yantic Baseball association was attended by seventy-five, Friday evening, and proved an enjoyable time. It was held in Firemen's hall. Leary's orchestra of Fitchville furnished snappy music for the dancing. Prof. Condon prompted. Refreshments were served.
